Topic 7: Gas fund and interest

- FUEL IS DIVIDED, SIMPLY, INTO 3 MAIN TYPES: *RON95-IV, RON95-III AND E5.*
- THE IDEA OF THE PROJECT IS TO **MANAGE THE ANNUAL FUND AND INTEREST OF A GAS STATION BASE ON DIFFERENT GAS STATION FUEL**
- FROM THERE, WE CAN *PRINT A REPORT AND DRAW A GRAPH*

HOW TO RUN THE DEMO OF THE PROJECT

The screenshot shows a web browser window titled "Project Eden Demo". The interface is split into two panels. The left panel displays a pixelated 3D scene of a house on a grassy hill under a night sky with a yellow sun and white stars. The right panel is a login form with the heading "Welcome Back!". It contains a text input field for the username, a password input field with "Password" as a placeholder, a blue "Login" button, and a link for "Forgot password?". Blue arrows point from external labels to the form elements: "Username" points to the first input field, "Password" points to the second input field, and "CLICK" points to the "Login" button.
